GOOD THINGS COME IN THREES

Jet

Triple

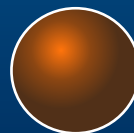

Fan

The Trio Deck Jet kit includes three nozzle options. Whether you use your outdoor space to host a lively summer party or unwind during a peaceful evening, there's a spray pattern that suits your style.

Having a flush-mounted fixture allows for seamless installation into pool decks, feature walls, or water play areas.

The three colours of hard-wearing plastic are specifically designed to discreetly blend with tiles and stone for a near-invisible finish.

Bronze

Tan
